

Transform your loan production process with DocMagic One—the comprehensive platform that eliminates the inefficiencies of juggling multiple disconnected systems. This cutting-edge platform unifies document generation, regulatory compliance, eSignature, and eClosing under a single, intuitive interface. Everyone, from loan officer to closer, gets an intelligent workflow designed just for them. The platform speeds workflow, reduces risk, and enhances collaboration, while offering instant visibility into performance across your entire portfolio.

A unified mortgage loan production platform.

Single Sign-On

Loan production, compliance, communication, closing coordination, and delivery all in one place.

Streamlined Workflows

Eliminate system-switching delays and reduce time-to-close.

All-party Collaboration

Task collaboration with your borrowers and streamlined fee collaboration with settlement agents and title services.

Continuous Compliance

Automated compliance monitoring with built-in audits.

Pipeline Analytics

Real-time visibility into loan production performance and key metrics.

Loan Health Scoring

Instantly flag files that need urgent attention.

Assistive AI

AI agents reduce the inefficient, manual processes of loan origination.
